

Linux Essentials (For Everyday Users) (code: LPI-Essentials)

Overview

Easily accessible introduction to working on Linux. We explain how the system works and introduce typical everyday tasks. We guarantee a lot of exercises and practical examples. The class is targeted at people who want to or have to work with Linux, mainly as everyday users.

It's **not** a course intended for IT specialists or future Linux system administrators.

We are an approved training partner of **Linux Professional Institute**. *Linux Essentials (For Everyday Users)* covers the topics needed for **Linux Essentials exam**.
